In Egegik: Fish are building up and milling in the Egegik Lagoon but not passing the counting tower. Water flowing out of Becharof Lake is 39 degrees. We will fly an aerial survey of the lagoon today as soon as weather permits.

Commercial fishing will be permitted with set gillnet gear only from 1:30 p.m. until 9:30 p.m. Friday, June 22, 2012..... an 8-hour period.

Egegik subsistence fishermen are reminded that the commercial district is open to subsistence fishing only during commercial fishing periods or at other times specified by Emergency Order. It is the department's desire to offer subsistence opportunity this weekend but we will not commit to time for subsistence or commercial fishing until tomorrow.

Fishermen in Egegik and Ugashik districts should stand by at 3:00 p.m., Friday June 22 for the next possible announcement.
